

# RIKEN-JSPS-CAS SYMPOSIUM

Date: **Sep. 25, 2015**

Venue: **Room 317, 319, 321 Cooperation Center**

- 13:00-13:45**     **Peibiao Zhang**, Professor, CIAC CAS  
*"Bioactive and biodegradable microcarriers for bone tissue engineering"*
- 13:45-14:30**     **Yulai Zhou**, Professor, Jilin University  
*"Research progress of regenerative medicine in Jilin University"*
- 14:30-15:15**     **Han Wu**, Professor, Jilin University  
*"Artificial bone graft materials in spinal surgery"*
- 15:15-15:30**     Break
- 15:30-16:15**     **Qingsan Zhu**, Professor, Jilin University  
*"Experimental study of bone growth in titanium mesh with different length and cross-sectional area in spinal reconstruction"*
- 16:15-16:45**     **Yu Wang**, Assistant Professor, CIAC CAS  
*"Chitin binding hbFGF for wounds healing"*
- 16:45-17:15**     **Zongliang Wang**, Assistant Professor, CIAC CAS  
*"Dual gradient scaffolds of Collagen/hydroxyapatite for osteochondral repair"*

**[This meeting is a part of the RIKEN Symposium Series.]**
